Authoritative source	Current DOORS release, configuration and governance records

Publication rule

Use the authenticated DOORS Documentation Hub as the source of truth. Downloaded copies may become obsolete after a release, security change or policy revision.

Learning objectives

After completing this manual, the reader should understand the authorized workflow, required evidence, security boundaries and escalation points for the role.

- Complete tasks without bypassing approval controls.
- Recognize information that must not be disclosed.
- Capture identifiers needed for audit and support.

Submit a data request

Describe the official purpose, minimum fields, time period, frequency, intended users and urgency.

- Avoid asking for entire tables.
- Explain why existing reports are insufficient.
- Attach only relevant non-sensitive supporting evidence.

Track the request

Use My Data Requests to follow review status and respond to clarification.

- Pending means no access has been granted.
- Rejection should be corrected through a new or revised request.
- Approval may contain conditions that remain binding.

Use approved output

- Use data only for the approved purpose.
- Do not republish or combine data to infer restricted information.
- Report incorrect or excessive data immediately.

Verification and support

Before closing a task, confirm the expected status, audit entry and resulting access. For failures, preserve the timestamp and correlation ID, redact sensitive content, and escalate through the approved support channel.

- Do not share passwords, API keys, private keys or complete sensitive payloads.
- Use the FAQ and Troubleshooting Runbooks for symptom-led diagnosis.
